

related to your ability to do work, see step (5).

(4) If we found at step (2) that there has been no medical improvement or if we found at step (3) that the medical improvement is not related to your ability to work, we consider whether any of the exceptions in paragraphs (d) and (e) of this section apply. If none of them apply, your disability will be found to continue. If one of the first group of exceptions to medical improvement (see paragraph (d) of this section) applies, we will proceed to step (5). If an exception from the second group of exceptions to medical improvement applies, your disability will be found to have ended. The second group of exceptions to medical improvement may be considered at any point in this process.

(5) If medical improvement is related to your ability to work or if one of the first group of exceptions to medical improvement applies, we will determine (considering all your impairments) whether the requirements of appendix 1 of this subpart are met or equaled. If your impairment(s) meets or equals the requirements of appendix 1 of this subpart, your disability will be found to continue. If not, your disability will be found to have ended.

(g) *The month in which we will find you are no longer disabled.* If the evidence shows that you are no longer disabled, we will find that your disability ended in the earliest of the following months—

(1) The month the evidence shows you are no longer disabled under the rules set out in this section, and you were disabled only for a specified period of time in the past;

(2) The month the evidence shows you are no longer disabled under the rules set out in this section, but not earlier than the month in which we mail you a notice saying that the information we have shows that you are not disabled;

(3) The month in which you demonstrated your ability to engage in substantial gainful activity (following completion of a trial work period); however, we may pay you benefits for certain months in and after the reentitlement period which follows the trial work period. (See § 404.1592 for a discus-

sion of the trial work period, § 404.1592a for a discussion of the reentitlement period, and § 404.337 for when your benefits will end.);

(4) The month in which you return to full-time work, with no significant medical restrictions and acknowledge that medical improvement has occurred, as long as we expected your impairment(s) to improve (see § 404.1591);

(5) The first month in which you failed to do what we asked, without good cause when the rule set out in paragraph (e)(2) of this section applies;

(6) The first month in which the question of continuing disability arose and we could not find you, when the rule set out in paragraph (e)(3) of this section applies;

(7) The first month in which you failed to follow prescribed treatment without good cause, when the rule set out in paragraph (e)(4) of this section applies; or

(8) The first month you were told by your physician that you could return to work provided there is no substantial conflict between your physician's and your statements regarding your awareness of your capacity for work and the earlier date is supported by medical evidence.

(h) *Before we stop your benefits.* Before we determine you are no longer disabled, we will give you a chance to explain why we should not do so. Sections 404.1595 and 404.1597 describe your rights (including appeal rights) and the procedures we will follow.

BLINDNESS

§ 404.1581 Meaning of blindness as defined in the law.

We will consider you blind under the law for a period of disability and for payment of disability insurance benefits if we determine that you are statutorily blind. Statutory blindness is defined in the law as central visual acuity of 20/200 or less in the better eye with the use of correcting lens. An eye which has a limitation in the field of vision so that the widest diameter of the visual field subtends an angle no

greater than 20 degrees is considered to have a central visual acuity of 20/200 or less. Your blindness must meet the duration requirement in § 404.1509. We do not consider certain felony-related and prison-related impairments, as explained in § 404.1506.

[45 FR 55584, Aug. 20, 1980, as amended at 48 FR 5715, Feb. 8, 1983]

§ 404.1582 A period of disability based on blindness.

If we find that you are blind and you meet the insured status requirement, we may establish a period of disability for you regardless of whether you can do substantial gainful activity. A period of disability protects your earnings record under Social Security so that the time you are disabled will not count against you in determining whether you will have worked long enough to qualify for benefits and the amount of your benefits. However, you will not necessarily be entitled to receive disability insurance cash benefits even though you are blind. If you are a blind person under age 55, you must be unable to do any substantial gainful activity in order to be paid disability insurance cash benefits.

§ 404.1583 How we determine disability for blind persons who are age 55 or older.

We will find that you are eligible for disability insurance benefits even though you are still engaging in substantial gainful activity, if—

- (a) You are blind;
- (b) You are age 55 or older; and
- (c) You are unable to use the skills or abilities like the ones you used in any substantial gainful activity which you did regularly and for a substantial period of time. (However, you will not be paid any cash benefits for any month in which you are doing substantial gainful activity.)

§ 404.1584 Evaluation of work activity of blind people.

(a) *General.* If you are blind (as explained in § 404.1581), we will consider the earnings from the work you are doing to determine whether or not you should be paid cash benefits.

(b) *Under Age 55.* If you are under age 55, we will evaluate the work you are

doing using the guides in paragraph (d) of this section to determine whether or not your work shows that you are doing substantial gainful activity. If you are not doing substantial gainful activity, we will pay you cash benefits. If you are doing substantial gainful activity, we will not pay you cash benefits. However, you will be given a period of disability as described in subpart D of this part.

(c) *Age 55 or older.* If you are age 55 or older, we will evaluate your work using the guides in paragraph (d) of this section to determine whether or not your work shows that you are doing substantial gainful activity. If you have not shown this ability, we will pay you cash benefits. If you have shown an ability to do substantial gainful activity, we will evaluate your work activity to find out how your work compares with the work you did before. If the skills and abilities of your new work are about the same as those you used in the work you did before, we will not pay you cash benefits. However, if your new work requires skills and abilities which are less than or different than those you used in the work you did before, we will pay you cash benefits, but not for any month in which you actually perform substantial gainful activity.

(d) *Evaluation of earnings—*(1) *Earnings that will ordinarily show that you have engaged in substantial gainful activity.* We will ordinarily consider that your earnings from your work activities show that you have engaged in substantial gainful activity if your monthly earnings average more than the amount(s) shown in paragraphs (d)(2) and (3) of this section. We will apply §§ 404.1574(a)(2), 404.1575(c), and 404.1576 in determining the amount of your average earnings.

(2) *Substantial gainful activity guidelines for taxable years before 1978.* For work activity performed in taxable years before 1978, the average earnings per month that we ordinarily consider enough to show that you have done substantial gainful activity are the same for blind people as for others. See § 404.1574(b)(2) for the earnings guidelines for other than blind individuals.

(3) *Substantial gainful activity guidelines for taxable years beginning 1978.* For
